December 31, 2018

Dear 100 Women Who Care About Livingston County Member,

On behalf of Livingston County Habitat for Humanity's board, staff, volunteers and partner families, thank you for your generous commitment. More than a gift, your support is an investment, helping us build, rehab and repair homes for hardworking low-income families right here in Livingston County for years to come. More importantly, it will help us foster HOPE for these families as they benefit from a *Hand Up, not a Hand Out*.

Your investment also shows that you value the following ideals:

- ❖ The efforts families make to help themselves through 250 hours of sweat equity per adult.
- ❖ Keeping costs low as we build clean, simple spaces to house our families; nothing extravagant, but always very safe, sound, and affordable.
- ❖ Volunteerism. Without volunteers and supporters like you, Livingston Habitat simply couldn't exist. We supply our volunteers with the necessary tools and supplies and they help us do the rest.

Finally, your investment helps us do our part to keep the community blight free and supported by tax-paying families who will do business in and give back to Livingston County. Thank you for believing in our big mission.

With every best wish,

Robert Johnson
Executive Director
